

## Computer Science Engineering

**Vision:** To become a premier department of learning in Computer Science and Engineering that empowers its students to be self-motivated, ethical, responsible and competent Professionals.

**Mission:**

- Continually improve the teaching-learning and associated processes to enable the students gain sound knowledge of the theoretical concepts of Computer Science and Engineering as well as its applications.
- Provide Comprehensive learning experiences that educate and motivate the students to acquire excellent technical skills, strong ethical values, life-long learning abilities and social consciousness.
- Strengthen industry institute interactions to enable the students work on realistic problems and expose them to practical issues in the industry.

**Assistant Professor**

**Message:**

Computing is changing the way we think and work, and places a significant role not only in solving various kinds of technology and technical challenges but also in satisfying societal needs such as healthcare. The Department of Computer Science and Engineering endeavours to contribute these advances through teaching and research in this field. The latest newsletter aims to provide general information to all concerned about the activities of the Department.
